# Leaders indicate Gaza truce is 'close'

Hope looms on horizon for return of hostages as truce could be reached soon

#### **GAZA STRIP**

HOPES mounted on Tuesday that Hamas could release dozens of hostages from war-torn Gaza after the militant group's leader and key mediator Qatar said a truce deal was in sight and the Israeli premier pointed to "progress".

"We are close to reaching a deal on a truce," Hamas leader Ismail Haniyeh said.

In Qatar, foreign ministry spokesman Majed Al-Ansari said "we're very optimistic, very hopeful" and told reporters: "We are at the closest point we ever had been in reaching an agreement."

Israeli Prime Minister Benjamin Netanyahu, who has vowed to destroy Hamas, told soldiers at a military base that "we are making progress" on the return of hostages. "I hope there will be good news soon," he added. Netanyahu's office said the special three-member War Cabinet met on Tuesday and would be followed by meetings of his Security Cabinet, a forum of senior security officials, and the full Cabinet.

There was no word on whether a vote would take place, and details of a deal were not released.

US President Joe Biden also signaled that a deal to free hostages and a temporary truce is "now very close." "We are now very

close, very close. We could bring some of these hostages home very soon. But I don't want to get into the details of things, because nothing is done until it's done," he said at the White House. "Things are looking good at the moment." Hopes of a breakthrough have been mounting since Qatar on Sunday said only "minor" practical issues remained to secure a deal. Speculation grew further when the International Committee of the Red Cross, which is often involved in prisoner exchanges and hostage releases, said on Monday that its president had met Haniyeh in Qatar. Despite the efforts towards a truce, fighting raged on in Gaza's bloodiest ever war, sparked by the October 7 attack in which Israel says Hamas gunmen killed around 1,200 people, mostly civilians. In retaliation, Israel launched a relentless bombing campaign and ground offensive in the Gaza Strip. According to the Hamas government, the war has killed more than 13,300 people, thousands of them children. Sources from Hamas and Islamic Jihad, which also participated in the attacks, said on condition of anonymity that their groups had agreed to the terms of a truce deal.

#### Concern over seizure of ship by Houthis

The UN Secretary-General is following with "deep concern" reports of the seizure of an Israeli-linked vessel by the Houthis in the Red Sea that was reportedly en route between Turkiye and India, a spokesperson said. On Sunday, a British-owned and Japanese-operated ship named "Galaxy Leader" was seized near Hodeida, Yemen, while sailing for India, according to the vessel's operator, NYK Line.

### 53 media workers killed in war

Fifty-three journalists and media workers have been killed in the latest war between Israel and Hamas, according to a tally by the Committee to Protect Journalists (CPJ) published Tuesday. The toll includes 46 Palestinians, four Israelis and three Lebanese killed since the war began on October 7, the New York-based organisation said. The CPJ said 11 journalists have been injured and 3 are missing

Xi pitches for international peace conference to resolve war in W Asia

#### BEIJING

CHINESE President Xi Jinping on Tuesday called for an "international peace conference" to resolve the conflict between Israel and Hamas, as he addressed a virtual summit of fellow BRICS leaders.

"There can be no sustainable peace and security in the Middle East without a just solution to the question of Palestine," Xi said, speaking through an interpreter. "China calls for an early convening of an international peace conference that is more authoritative to build international consensus for peace," he said. Such a conference would, Xi added, "work toward an early solution to the question of Palestine that is comprehensive, just and sustainable".

"Since the outbreak of the latest

Palestinian-Israeli conflict, China has been working actively to promote peace talks and a ceasefire," he said.

Beijing, he said, "has provided humanitarian assistance to help ease the humanitarian plight in Gaza" and would continue to do so.

Pretoria is hosting a virtual meeting of BRICS—a group of major emerging economies that includes Brazil, Russia, India, China and South Africa — aimed at drawing up a common response to the Israel-Hamas conflict. China has historically been sympathetic to the Palestinians and supportive of a two-state solution to the Israeli-Palestinian conflict.

Xi also called for the release of civilian detainees and an immediate ceasefire in the war between Israel and Hamas, state media said. AFP

Israeli strikes kills 4 civilians in Lebanon

**BEIRUT:** Israeli bombardment of south Lebanon on Tuesday killed four civilians, including two journalists from Lebanon's Al-Mayadeen television in ongoing violence at the Lebanon-Israel border. Since the Israel-Hamas war began on October 7, the frontier between Lebanon and Israeli has seen escalating exchanges of fire, mainly between Israel and the Iranbacked Hezbollah movement
